

# JACK AND JILL CUT OUTS

# JACK AND JILL CUT OUTS

## Directions:

To make your own felt board story, copy each picture onto cardstock

After, laminate the sheet (or use contact paper) and cut out each item.

Now, cut a piece of felt to fit the back of each picture and glue it on.

For the hill, cut a hill shape out of green cardstock. This will save you from wasting colored ink on a hill. Then, laminate, cut, and glue felt on the back.

You are ready to use the characters for retelling Jack and Jill.

I hope you enjoy these felt story characters and it inspires you.
